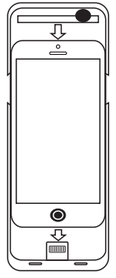
# Ultra Slim Case with Built-in Battery Designed for iPhone 5

## User Manual

## THANK YOU

Thank you for purchasing the iContact case with built-in rechargeable battery for iPhone 5. When used properly, this battery case can double the time you use your iPhone before you have to stop to plug it in again. When your phone's internal battery is almost empty, simply switch to the auxiliary battery built into the case and keep using your phone without interruption.

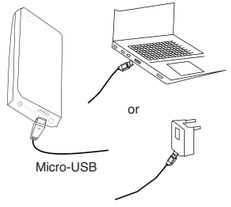


## USING THE CASE

To insert the phone into the case simply slide open the case, insert the phone and close the case.

If the phone is inserted in the case while the case is plugged in and charging, the phone will charge first, then the case will charge.

## 2 WAYS TO CHARGE



1. Connect the case (with or without the phone inserted) to a computer USB port using the included Micro-USB cable.
2. Connect the case (with or without the phone inserted) to a power outlet using the included Micro-USB cable and a compatible USB Charger Adapter (not included).

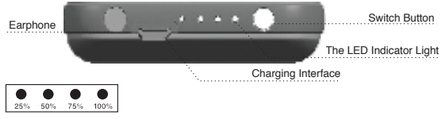
## BATTERY CAPACITY INDICATIONS



Press and release the Switch Button: the LED indicator lights show the current charge level of the case.

Press the Switch Button for 3 seconds to start charging your phone.

Charging will automatically stop when the phone battery is fully charged or when the battery case is out of power.

## QUALITY / SAFETY CONTROL

We choose grade "A" cells, protective ICs made in Japan or Taiwan, and other high quality raw materials. We conduct up to 16 tests at each stage of assembly, including parts, work-in-progress and final product. Any defective parts are rejected. A protective circuit will prevent the backup battery from short-circuiting, over-charging and over-discharging even under extreme conditions.

## MAINTENANCE

Follow these guidelines to keep your battery operating to its fullest potential:

1. Recharge the battery once every three months when it is not in use.
2. Keep the battery dry and away from moist and corrosive materials.
3. Do not wash the battery with harsh chemicals, soaps or detergents.

## WARNING!

Read all included instructions and warnings prior to using this product. Failure to read and follow safety instructions could result in fire, explosion, electrical shock or other hazard causing serious and/or fatal injury and/or property damage.

1. Do not modify, disassemble, open, drop, crush, puncture or shred this product.
2. Do not expose the product to rain, water or other liquids.
3. Keep away from open flame and sunlight to prevent heat build-up.
4. Keep away from high voltage devices.
5. This product is not a toy. Keep away from children. Ensure that all persons who use the product read and follow these warnings and instructions.

*Exercise caution when using this product and use at your own risk. We shall not be held liable for any damages resulting from the use of this product.*
